Relaxed Cargo Pant

vn-p016

Resolved reference finding

Replaced both Olive and Jet Black rear references with authored true-rear mockups: center-back seat seam, plain rear seat and elastic waistband. Front drawcord and front emblem are absent from rear views; existing outer-leg cargo pockets remain. This closes the missing-rear reference finding for both saved colours.

Version precedence

R10 correction pack supersedes conflicting R07/R08/R09 descriptions, references and affected dimensions. Retain unchanged original specifications. This closes the reference finding, not bulk-production approval.

Design authority and limits

R10 is an authored design-reference correction under the owner instruction to finish the findings. Rendered rear views and hidden construction are documented design decisions. They are not photographs of manufactured samples. Actual fit, material performance, hardware tooling and embroidery sew-out still need factory validation.

Construction and artwork

Design features

Relaxed straight-leg cargo trousers; elastic waistband and front drawcord; large upper outer-thigh and smaller lower outer-leg flap pockets. R10 rear: plain seat, center-back seam; no rear patch pockets or rear emblem.

Material target

100% cotton twill, 260 GSM

Assembly

Type 301 lockstitch joining; type 504 overedge raw edges. Reinforce existing pocket openings, vents and fastening ends. Preserve darts, pleats, pocket count and silhouette.

Hardware

Front drawcord and its existing eyelets/tips only. Rear waistband has no cord exit. Do not add the generic zip previously mentioned.

Artwork instruction

STYLE LOCK: Relaxed Cargo Pant. Use this garment’s exact saved colourway artwork and features. Preserve lettering, panel positions and proportions. Existing recorded artwork dimensions take precedence. R06 specifications do not authorize replacing an illustration with a generic logo. Vector artwork, placement strike-off and physical sample approval remain required.

Sampling measurements

R05 authored design targets from Vanta block B07. Not physical measurements or signed sample approval. Finished flat cm after relaxation. Preserve the saved design; M is the sample size. Elastic stretch performance must be tested on the actual material.

Measurement rule

Widths are one-side flat widths, not body circumference. Retained numbers remain design targets. Do not scale mockup photographs for pattern dimensions. Confirm tolerances, seam reserves, fit and movement on the sample.
